

MAKING A PAPER PLANE

~ make two so you can race them~

1. Take an A4 sheet of paper and fold it in half

2. Fold the short edge of one side down to the first fold (ie produces a 45 Degree angle). Do this for the other side too.

3. Fold down the new fold you have created to the original fold you did in (1). Repeat for the other side.

4. Do (3) again for both sides

5. Hold Centre and open wings out. Now Throw!!!

How far did they fly?
